

American Association of Orthodontists' Practice Opportunities Service

ADDITIONAL INFORMATION

- **SUCCESS**
POS has been highlighted in the dozens of matches reported in 2010 between providers and seekers registered on the job bank.
- **RECOGNIZED**
POS has been recognized as a leader in providing members a "practical and accessible career center, and job board."
- **AWARD WINNING**
POS is the proud recipient of the Gold prize in the career resource for members' category of the 2010 All Media Contest held by Association TRENDS.
- **OVERSIGHT**
Policy oversight is provided by the Council on Orthodontic Practice (COOP).

LOOKING TO PURCHASE OR SELL A PRACTICE? THE AAO'S PRACTICE OPPORTUNITIES SERVICE ONLINE CAN HELP.

The AAO's Practice Opportunities Services (POS) is a web-based self-listing program which allows registered providers and seekers to post their information in a secure way. POS online is a free, confidential matching service for AAO members - seekers and providers wishing to hire an Associate, bring in a Partner, sell or transition their practices. As a member benefit, the AAO's POS is accessed exclusively by AAO members.

PROVIDERS

Providers entering the stage in their career where they wish to bring in a partner to increase their time off, and still maintain quality patient care, can turn to the POS job bank to list their practice confidentially, and search for a suitable candidate which would be a good "fit" for bringing into the practice or sale. Providers wishing to transition their practice benefit from a fully automated, secure website. Providers have the option of listing an opportunity anonymously. Participating in the job bank will give immediate access to the database of AAO members who are interested in practice opportunities.

SEEKERS

Seekers wishing to purchase a practice, find a full-time or part-time associateship or partnership can feel confident in knowing that POS is free, convenient and confidential. Seekers may view available listings and contact a provider anonymously. Only the information seekers chooses to share is revealed.
